- 11 **Firms & Faces**

■ MARITIME POLICY, STRATEGY & FORCES

- 68 **Kit and CONOPS:
REPMUS demonstrates new ways and
means for using USVs**
Dr Lee Willett
- 72 **Smarter weapons:
torpedo enhancements improve effectiveness**
Tim Fish
- 78 **High speed naval assets**
Sidney E. Dean
- 82 **Mine countermeasures vessels**
Sidney E. Dean

■ SHIP DESIGN & TECHNOLOGIES

- 86 **Sustaining the fleet:
current logistic support ship acquisitions**
Conrad Waters
- 90 **Guiding light:
lasers provide new direction for
dealing with massed maritime threats**
Dr Lee Willett
- 95 **Future integration**
Combat management systems provide core
naval capability for countering – and harnessing –
emerging technologies. A Swedish Example.
Dr Lee Willett
- 100 **Capability growth:
naval missiles and gun systems
boost surface warfare**
Tim Fish
- 104 **Evolution or revolution:
maybe it's a bit of both**
Dr Lee Willett
- 108 **Submersible vessel programmes**
Sidney E. Dean
- 112 **Propelling the future submarine –
countering new ASW challenges with
lithium-ion batteries and air-independent propulsion**
Commander Lars Bahnemann

■ INDUSTRY & COMMERCE

- 116 **European submarine builders:
riding the upturn**
Conrad Waters
- 122 **European surface combatant
construction: status report**
Conrad Waters

■ MARITIME OPERATIONS & DOCTRINE

- 127 **The right stuff below the waves**
Tim Guest
- 132 **Knowing there's hope**
Tim Guest
- 137 **Threats and surface ship survival**
Tim Guest
- 141 **Warding off new threats
Maritime counter UAV and USV technologies**
Sidney E. Dean
